Absolutely Pure

There is a remarkable interest in Home Baking and Cooking throughout the land.

This is a most encouraging indication that the battle against impure, improper food is going to be won.

The credit for the victory will belong to the women of the country.

Home cooking has the backing of science and the approval of fashion. It adds to housekeeping a pride; to our food, healthfulness.

It is acknowledged by experts, and by the women who know, that the best cooking in the world to day is with the aid of Royal Baking Powder.
